

GlassTrend Seminars

GlassTrend organizes several seminars every year (typically in Spring and in Fall), sometimes in cooperation with other organizations such as ICG, ESG or DGG. Seminars may be hosted by GlassTrend companies.

History of Glass Trend Meetings

2001

- GlassTrend Inaugural Meeting (Eindhoven, NL)
- Glass – Contact with Refractories (Eindhoven, NL)
- Energy Reduction, Recycling & Energy Efficiency in Glass Melting Processes (Eindhoven, NL)

2002

- Glass Melt Properties (Eindhoven, NL)
- Furnace Control and Sensors (Eindhoven, NL)

2003

- Energy Efficiency, Emissions and Recycling, *in cooperation with GWI* (Eindhoven, NL and Essen, GE)
- Glass Forming Processes and Modeling (Eindhoven, NL)

2004

- Glass Quality and Glass Defects (Eindhoven, NL)
- Melting Concepts for the Glass Industry (Eindhoven, NL)

2005

- Borosilicate Glasses & Raw Materials in Glass Industry, *in cooperation with ITC and US Borax* (Castellon, Spain)
- Refractory Materials in Glass Furnaces & Glass Homogeneity (Eindhoven, NL)

2006

- Sensors & Process Control in Glass Melting Processes
hosted by Schott (Mainz, Germany)
- Glass Melt Properties & Thermodynamic Properties of Glass,
sessions during the ESG conference (Sunderland, UK)

2007

- Energy Efficiency & Environmental Aspects of Industrial Glass
Melting, *hosted by Air Liquide* (Versailles, FR)
- Adding Value by Glass Surface Treatment (Eindhoven, NL)

2008

- Glass Melting Processes, *in cooperation with DGG* (Hamel, GE)
- Conditioning of Glass Melts and Forming (Eindhoven, NL)

2009

- Melting and Fining Quality & Glass Defects, *hosted by Şişecam* (Istanbul, Turkey)
- REACH, Raw Materials & Recycling in Glass Industry (Eindhoven, NL)

2010

- Glass Furnaces & Refractory Materials, *in cooperation with DGG* (Magdeburg, GE)
- Advanced Sensors & Process Control in High Temperature
Processes, *in cooperation with NCNG, AgentschapNL and DGG* (Maastricht, NL)

2011

- Advances in Fining Processes, Redox & Color Control in Glass
Production (Eindhoven, NL)
- Bringing Together Academia & Glass Industries, *in cooperation
with ICG* (Zandvoort, NL)
- Environmentally Sound & Energy Efficient Glass Production
& Product, *sessions during the ATIV conference* (Parma, Italy)

2012

- Glass Melting Technology, *sessions during the joint
ICG - ESG - DGG conference* (Maastricht, NL)
- Alternative Raw Materials and Advanced Batch Pretreatment
for Glass Melting, *in cooperation with NCNG and DGG* (Eindhoven, NL)

2013

- Innovation in Glass Production (Eindhoven, NL)
- Glass Technology sessions during the ICG conference (Prague, CZ)
- Quality of Glass Melting & Production, Glass Defects,
hosted by Şişecam (Istanbul, Turkey)

2014

- Glass Technology sessions during the joint ACerS
GOMD – DGG conference (Aachen, GE)
- Glass Technology sessions during the ESG-ATIV conference (Parma, Italy)

2015

- Furnace Heating Technologies and Energy Efficiency,
hosted by Vidrala (Bilbao, Spain)
- Sensors and Process Control in the Glass Industry (Eindhoven, NL)
